	Remote control kit	Remote controller *1 Hand strap *1 Wireless charger *1 USB cable *1
	Mounting kit	Mast screws *4 Tool *1
	Battery charger kit	Battery charger *1 Power cable *1 Fuse *2
Carton #3 Battery	Battery	Battery *1

-BATTERY CHARGING-

STEP 1. Select the correct voltage in your country.

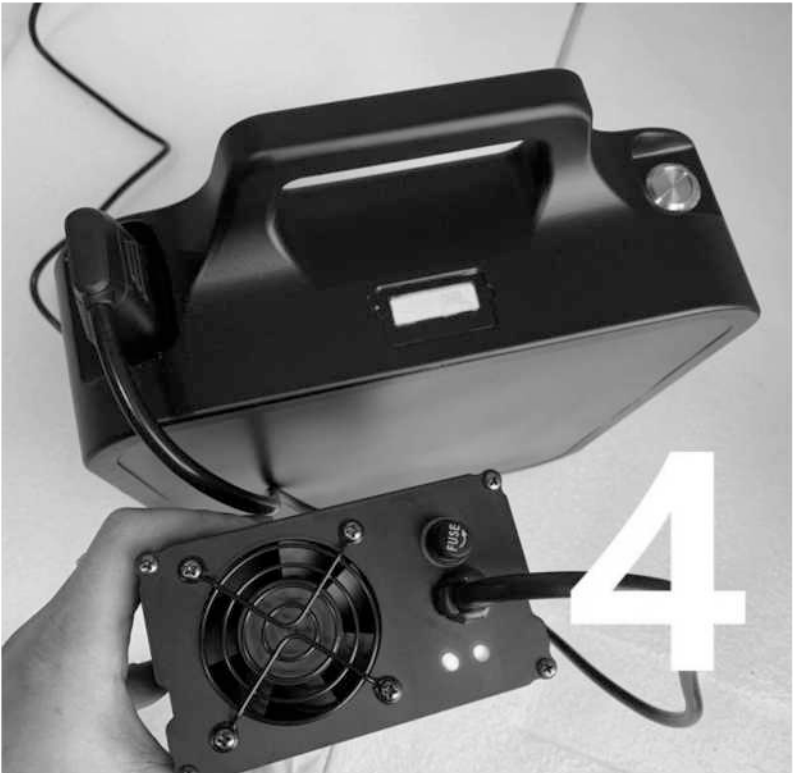

STEP 2. Power on the charger. In the standby status, the GREEN light is on

STEP 3. Switch on the battery.

STEP 4. Connect the charging cable. In the charging status, the GREEN light turns RED.

- STEP 5. The RED light turns GREEN after the charging is finished.
- Please do not leave this battery unattended while charging.
- Disconnect the battery after the charging is finished.

-EFOIL ASSEMBLY-

STEP 1 - Assemble the fuselage. Please check these screws before every use.

STEP 2- Assemble the main wing. Please check these screws before every use.

STEP 3 - Assemble the rear wing. Please check these screws before every use.

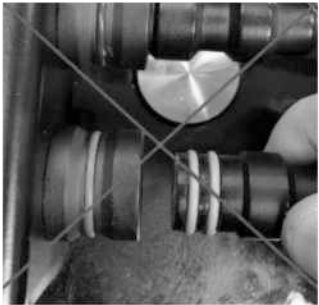

STEP 4 – Put the motor cables inside the surfboard.

STEP 5 – Assemble the mast. Please make sure the mounting plate is clear from cables.

STEP 6 – Connect the motor cables by the same color. Please push the plug to the end of the socket.

STEP 7. Put the battery in the surfboard.

STEP 8. Connect the battery cable. Please push the plug to the end of the socket.

STEP 9. Turn on the remote controller.

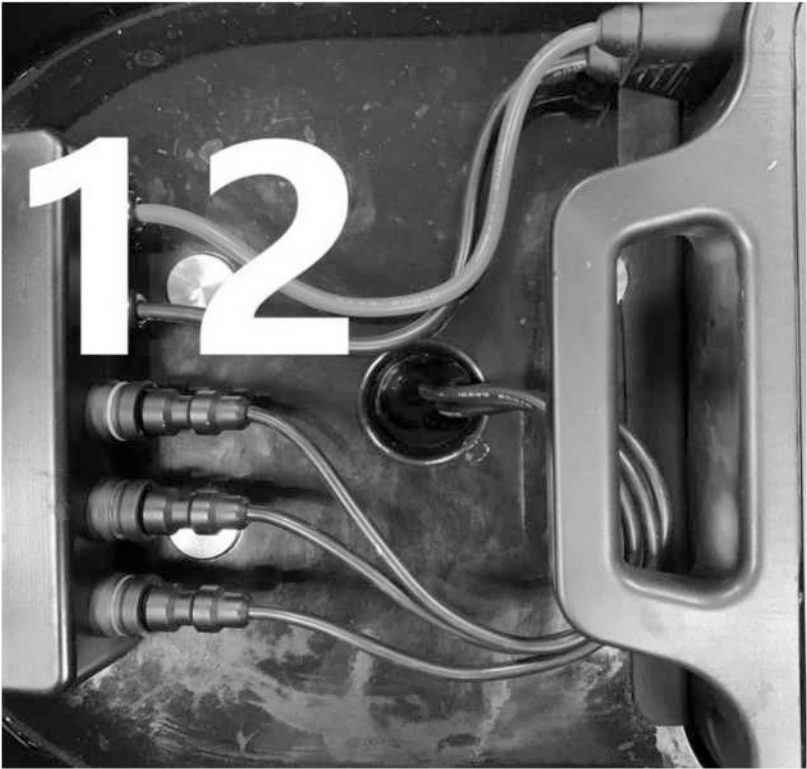

STEP 10. Switch on the battery. Please make sure the remote controller is ON when you press the battery button.

STEP 11. Check the electronic with low speed. Without cooling water, high speed running will damage the motor sealing.

STEP 12. Make sure all wires stay under the battery.

STEP 13. Close the cover by two hands in the same time.

STEP 14. Double check the cover is full close.

STEP 15. A lifejacket and helmet are necessary for this sport.
